

INTERCHANGE AND ROADWAY IMPROVEMENTS

C.R. 484 from SW 20th Avenue to C.R. 475A and I-75 Resurfacing from Sumter County line to S.R. 200

Marion County

Financial Project Identification

(FPID) No.: 433651-1 and
443170-1

PROJECT DESCRIPTION

The Florida Department of Transportation (FDOT) will be improving safety and traffic flow on County Road (C.R.) 484 from west of S.W. 20th Avenue to east of County Road (C.R.) 475A and will also be resurfacing I-75 from the Sumter County line to State Road (S.R.) 200 in Marion County.

There are two projects associated with these improvements.

Project 433651-1 will have additional turn lanes and turn lane extensions added at both the C.R. 484/I-75 interchange and at the C.R. 484/C.R. 475A intersection. Reconstruction of the westbound through lanes, and modification of the existing I-75 bridge will be completed to accommodate the widening. The project will also improve bicycle lane and pedestrian sidewalk connectivity throughout the project limits. Other improvements include median modifications and upgrades to the existing traffic signals.

Project 443170-1 will consist of resurfacing I-75 from the Sumter County line to S.R. 200 in addition to reconstructing the existing median crossovers, updating, and adding guardrail where necessary and minor drainage work will take place.

WHAT TO EXPECT

During construction, motorists can expect frequent single-lane closures during nighttime hours. Signage and traffic control devices will direct drivers through the remaining open lanes during these closures.

Uneven pavement is a common unavoidable roadway condition with resurfacing projects as the contractor must put down different layers of asphalt during various phases of construction. Road conditions during construction are short-term and will become less apparent as the project progresses. Motorists are asked to exercise caution while driving through the work zone.

The contractor will maintain access to sidewalks, businesses, and residences during construction. The construction schedule may change due to weather or other unexpected conditions. For project updates, visit FDOT's Central Florida Roads website, www.cflroads.com/
