### PUBLIC INVOLVEMENT PLAN

# Truck and Freight Alternative Site Analysis PD&E Study

### Osceola, Orange, Seminole, and Volusia Counties, Florida

The purpose of this Public Involvement Plan (PIP) is to assist in providing information to, and obtaining input from, concerned citizens, agencies, private groups (residential/business), and governmental entities. The overall goal of this plan is to help ensure that the study reflects the values and needs of the communities it is designed to benefit. A schedule of events and a list of documentation exhibiting compliance with these procedures are included.

This plan is in compliance with the Florida Department of Transportation's *Project Development and Environment (PD&E) Manual, Part 1, Chapter 11*.

This PIP is a living document and will be updated throughout the life of this PD&E Study.

### I. DESCRIPTION OF PROPOSED IMPROVEMENT

Financial Management Number: 447724-1-22-01

Federal Aid Project Number: N/A

Project Limits: <u>Interstate 4 (I-4) from the I-95 Interchange in Volusia</u>

County to the Osceola Polk Line Road in Osceola County

Proposed Activity: Project Development and Environment (PD&E) Study

Class of Action: Type 1 Categorical Exclusion Anticipated

Figure 1
Project Location Map

### **Project Contact Information**

For additional information regarding this project contact:

Mark Trebitz, P.E.

Project Development Manager FDOT-District 5 Project Manager 719 S. Woodland Blvd DeLand, FL 32720 (386) 943-5157 Mark.Trebitz@dot.state.fl.us Demond Hazley

Contractor Project Manager VHB, Inc. 225 E. Robinson St. Unit 300 Orlando, FL 32801 (407) 965-0509 DHazley@VHB.com

### II. PROJECT BACKGROUND

The Truck and Freight Alternative Site Analysis PD&E Study will evaluate potential truck and freight parking sites along the I-4 corridor through Osceola, Orange, Seminole and Volusia Counties that are viable for private and public operator use. The study will include social, economic, engineering, and environmental assessments of the potential parking sites. Preliminary concept designs will be prepared for each viable parking site. Public engagement will be conducted during the study and public meetings will be held in each county. The project location map is provided in **Figure 1**.

### III. PROJECT GOALS

The following goals and objectives have been defined for this study:

- Identify sites that are potentially viable for public and private operator use along the I-4 corridor in District 5
- Ensure a complete and objective consideration of alternatives consistent with National Environmental Policy Act (NEPA) process requirements.
- Obtain input from industry stakeholders and community stakeholders, interest groups and the general public during the PD&E phase.
- Identify and advance one or more viable sites to the design phase.

### IV. IDENTIFICATION OF ELECTED OFFICIALS AND AGENCIES

The following local, regional, state, or federal agencies having a concern in this project due to jurisdictional review or expressed interest will be contacted directly by the Florida Department of Transportation (FDOT) throughout the life of the project. As other concerned public agencies are identified throughout the study, they also will be listed and contacted. The Public Involvement contacts list is provided in **Appendix A.** 

### State:

Florida Department of Transportation

District 5 MPO Liaison Supervisor, Anna Taylor

District 5 Rail Coordinator, Jim Ganey

Office of Environmental Management, District 5 Environmental Manager, William Walsh

District 5 Modal Development Administrator, Brian Stanger

District 5 Freight and Logistics Manager, Allison McCuddy

District 5 Freight, Seaport and Spaceport Coordinator, Sarah VanGundy

District 5 Project Development Administrator, Steven Buck

District 5 Project Development Manager, Karen Snyder

Central Office Freight and Multimodal Operations Office Manager, Rickey Fitzgerald

Central Office Freight and Rail Planning Administrator, Holly Cohen

Freight Logistics and Passenger Operations Chief of Modal Development, Kenyatta Lee

District 1 Freight Coordinator, Keith Robbins

Office of Environmental Management, Project Delivery Coordinator, Brittany Bianco

Office of Environmental Management, Director, Native American Coordinator, Jennifer

Office of Environmental Management, State Environmental Process Administrator, Katasha Cornwell

Office of Environmental Management, State Environmental Quality and Performance Administrator, Peter McGilvray

Office of Environmental Management, Project Development Engineer, Michael Pennington

Office of Environmental Management, Environmental Permit Specialist, Karina Kronis Clough

Office of Environmental Management, State Environmental Program Administrator, Thu-Huong Clark

Office of Environmental Management, Project Delivery Coordinator, Denise Rach

Florida Department of Agricultural and Consumer Services, Florida Forest Service

Orlando District Field Unit Manager, Sean Gallagher

Orange, Osceola, and Seminole County Forester, Dana Sussman

Volusia County Forester, Conrad Wysocki

Orange County Forest Area Supervisor, Wil Kitchings

Osceola County Forest Area Supervisor, Michael Facente

Seminole County Forest Area Supervisor, Travis McGowen

Volusia County Forest Area Supervisor, Will Raulerson

Florida Department of Economic Opportunity

Bureau of Community Planning and Growth Southeast Team, Kelly Corvin

Community Planning Analyst, Matt Preston

Florida Department of Environmental Protection

Clearinghouse Coordinator, Chris Stahl

Central District Director, Aaron Watkins

Permitting Program Administrator, Reggie Phillips

Florida Department of State

State Historic Preservation Officer, Timothy Parsons, PhD

Compliance Review Supervisor, Jason Aldridge

Archaeologist, Adrianna Daggett

Historian/Historic Preservation Planner, Alyssa McManus

Florida Fish and Wildlife Conservation Commission

Acting Northeast Region Director, Greg Workman

Director of Conservation Planning Services, Jennifer Goff

Program Administrator, Jason Hight

Kelvin Miller General Manager, Votran

Howard Bailey Fire Chief

### V. IDENTIFICATION OF AFFECTED COMMUNITIES AND STAKEHOLDERS

The project limits fall within Orange, Osceola, Seminole, and Volusia Counties. A map of the project limits is provided on Figure 1 of this PIP. The demographics of the study area were obtained through the FDOT Efficient Transportation Decision Making (ETDM) Environmental Screening Tool (EST) Sociocultural Data Report (SDR), using American Community Survey (ACS) 2015-2019 Census Data. A copy of the SDR is attached to this PIP in **Appendix B**.

A quarter-mile buffer was applied to the study area in order to analyze the SDR data. The study team will collect additional SDR data that is more specific to the potential truck and freight parking sites when the alternatives are developed. Key demographics in the project area such as; transit dependent, elderly, and limited English proficiency will be taken into consideration during the selection of public meeting locations and development of notification materials. The team will also ensure that team members are available at meetings for the translation of study information if it is deemed necessary.

Demographics within the quarter-mile buffer of the study area are as follows:

Total population: 43,481
Total households: 17,681
Minority population: 50.97%

Population age 65 and over: 13.72%Population below Poverty Level: 14.41%

Households with public assistance income: 1.89%
Population age 20 to 64 with a disability: 7.84%

Education level less than 9<sup>th</sup> grade: 3.58%

Occupied housing units with no vehicle: 7.07%
Households with no internet access: 1,975

• Limited English-Speaking households:

o Spanish: 835

o Indo-European: 210

o Asian and Pacific Island: 116

o Other languages: 24

The following local, state, and national public interest groups or organizations having a direct or expressed interest in the project study have been identified and will be contacted by the Florida Department of Transportation. Additional stakeholders will be identified and added as the potential truck and freight parking sites are developed.

In addition to working with the media, a number of different notification techniques will be used throughout the project development process. A brief description of these techniques is provided below.

Letters/Newsletters: Invitational and informational letters and newsletters will be distributed to elected and appointed officials, property owners/tenants, business owners/operators, and interested parties as feasible. It is anticipated that three (3) newsletters will be distributed for this study: one kickoff newsletter to inform the public at the start of the project in lieu of a public kickoff meeting, and one newsletter before each public meeting.

News/Press Releases: News/press releases will be submitted to the FDOT seven (7) days prior to the

hybrid public information meetings and hybrid alternatives meetings.

**Public Notices/Ads:** Public advertisement will be published in the area newspaper with the largest

circulation once prior to the hybrid public information meetings, once prior to the hybrid alternatives meetings, and once to announce Location and Design Concept

Acceptance (LDCA) at the end of the study.

Public Announcements: In order to distribute PD&E study information, fliers will be made available to organizations such as neighborhood/civic groups, the FDOT, and Orange,

Osceola, Seminole, and Volusia Counties, to publish in existing newspapers and websites. Any such correspondence will be coordinated through the District's Public Information Office (PIO).

### **Direct Mail List for Public Information Meetings:**

The following will be contacted by direct mail via an informational postcard in order to obtain input throughout the project development process and/or in order to provide project information:

- Those whose property lies, in whole or part, within at least 300 feet on either side of the centerline of each project alternative (Section 339.155, F.S.), as well as other local citizens who may be impacted by the construction of this project. This portion of the mailing list will be based on the Orange, Osceola, Seminole, and Volusia Counties Property Appraiser's tax rolls.
- Local elected and appointed public officials or individuals who request to be placed on the mailing list for this project.
- Public and private groups, organizations, agencies, or businesses that request to be placed on the mailing list for this project.

### Techniques:

### **Local Advisory Group:**

A local advisory group (or public advisory committee) may be selected, for advisory purposes, with the assistance of local governments; composed of local citizens having an active role in the community, such as representatives from impacted/interested cities, counties, regional agencies, MPOs and committees, and neighborhood associations or other groups within the project area.

### **Presentations to Local Officials:**

Twelve (12) formal presentations will be given to local officials and agencies such as the TPO's and MPO's prior to the Public Information Meeting to apprise local officials of the project status, specific location, and design concepts, and to receive their comments.

### **Public Information Meetings:**

There will be eight (8) total public meetings, all of which will be hybrid (GoToWebinar and in-person). More specifically, four (4) hybrid public information meetings (one in each county) and four (4) hybrid alternatives meetings (one in each county) will be conducted, as required by the FDOT, to present the project and the conceptual project alternatives being considered, and to obtain comments from the general public.

### **Informal Meetings:**

In addition to the scheduled public information meetings, there will be approximately eighteen (18) additional meetings with the public, elected and appointed officials, public agencies, or civic groups. The purpose of these

meetings will be to apprise the attendees of the project status, specific location, and design concepts, and to receive input.

### **Public Outreach Activity Schedule:**

Public Outreach Activities				- 2	202	1							- 2	202	2			
Public Outreach Activities	Α	М	J	J	Α	s	0	N	D	J	F	М	Α	М	J	J	Α	S

Newsletter #2							*											
Alternatives Development & Evaluation																		
Newsletter #3							F			*								
Hybrid Public Meeting #1								*										
Hybrid Public Meeting #2											*			100				
Type I CE Approval														*				

### VII. COORDINATION WITH ORANGE, OSCEOLA, SEMINOLE, AND VOLUSIA COUNTIES

Copies of aerial maps depicting all potential truck and freight parking sites and design concepts under consideration, along with draft copies of engineering and environmental study documentation, will be furnished to the county(s) and impacted municipalities, with their review and written comments solicited. Updated information will also be forwarded to the county(s) and impacted municipalities of potentially viable sites for review and comment prior to the scheduled public meeting.

### VIII. PUBLIC INVOLVEMENT DURING DESIGN

It is anticipated that the Design Project Manager will maintain the appropriate level of public involvement activities throughout the final design process. These public involvement activities may include additional coordination meetings with local government, stakeholders and environmental permitting agencies, work sessions, and small group meetings as directed by the FDOT.

### **Community Facilities**

The community facilities information below is useful in a variety of ways for environmental evaluations. These community resources should be evaluated for potential sociocultural effects, such as accessibility and relocation potential. The facility types may indicate the types of population groups present in the project study area. Facility staff and leaders can be sources of community information such as who uses the facility and how it is used. Additionally, community facilities are potential public meeting venues.

```

### **Data Sources**

### **Area**

(1)

The geographic area of the community based on a user-defined community boundary or area of interest (AOI) boundary.

### Jurisdiction

(2)

Jurisdiction(s) includes local government boundaries that intersect the user-defined community or AOI boundary.

### **Goals, Values and History**

(3)

Information under the headings Goals and Values and History is entered manually by the user before the Sociocultural Data Report (SDR) is generated. This information is usually not available for communities with boundaries that are based on Census-defined places (i.e., not user-specified).

### Demographic Data

(4)

Demographic data reported under the headings General Population Trends, Race and Ethnicity Trends, Age Trends, Income Trends, Educational Attainment Trends, Language Trends, and Housing Trends is from the U.S. Decennial Census for 1990 and 2000 and the American Community Survey (ACS) 5-year estimates for 2006-2010 and ACS 2015-2019. The data was gathered at the block group level for user-defined communities, Census places, and AOIs, and at the county level for counties. Depending on the dataset, the data represents 100% counts (Census Summary File 1) or sample-based information (Census Summary File 3 or ACS).

### About the Census Data

(5)

The block group analysis for user-defined communities, Census places, and AOIs do not always correspond precisely to block group boundaries. In these instances, adjustment of the geographic area and data for affected block groups is required to estimate the actual population. To improve the accuracy of such estimates in the SDR report, the census block group data was adjusted to exclude all census blocks with a population of two or fewer. These areas were eliminated from the corresponding years' block groups. Next, the portion of the block group that lies outside of the user-defined community, Census place, or AOI boundary was removed. The demographics within each block group were then recalculated assuming an equal area distribution of the population. Note that there may be areas where there is no population.

(6)

Use caution when comparing the 100% count data (Decennial Census) to the sample-based data (ACS). In any given year, about one in 40 U.S. households will receive the ACS questionnaire. Over any five-year period, about one in eight households will receive the questionnaire, as compared to about one in six that received the long form questionnaire for the Decennial Census 2000. (Source: https://www.census.gov/content/dam/Census/programs-surveys/acs/news/10ACS\_keyfacts.pdf) The U.S. Census Bureau provides help with this process: https://www.census.gov/programs-surveys/acs/guidance/comparing-acs-data.html

(7)

Use caution when interpreting changes in race and ethnicity over time. Starting with the 2000 Decennial Census, respondents were given a new option of selecting one or more race categories. Also in 2000, the placement of the question about Hispanic origin changed, helping to increase responsiveness to the Hispanic-origin question. Because of these and other changes, the 1990 data on race and ethnicity are not directly comparable with data from later censuses. (Source: http://www.census.gov/prod/2001pubs/c2kbr01-1.pdf;

http://www.census.gov/pred/www/rpts/Race%20and%20Ethnicity%20FINAL%20report.pdf)

(8)

The "Minority" calculations are derived from Census and ACS data using both the race and ethnicity responses. On this report, "Minority" refers to individuals who list a race other than White and/or list their ethnicity as Hispanic/Latino. In other words, people who are multi-racial, any single race other than White, or Hispanic/Latino of any race are considered minorities.

(9)

Disability data is not included in the 2010 Decennial Census or the 2006-2010 ACS. This data is available in the ACS 2015-2019 ACS.

Because of changes made to the Census and ACS questions between 1990 and ACS, disability variables should not be compared from year to year. For example: 1) with the 1990 data, the disabilities are listed as a "work disability" while this distinction is not made with 2000 or ACS data; 2) the ACS data includes the institutionalized population (e.g. persons in prisons and group homes) while this population is not included in 1990 or 2000; and 3) the age groupings changed over the years.

(11)

The category Bachelor's Degree or Higher under the heading Educational Attainment Trends is a subset of the category High School Graduate or Higher.

(12)

Income of households. This includes the income of the householder and all other individuals 15 years old and over in the household, whether they are related to the householder or not. Because many households consist of only one person, average household income is usually less than average family income.

(13)

Income of families. In compiling statistics on family income, the incomes of all members 15 years old and over related to the householder are summed and treated as a single amount.

(14)

Age trends. The median age for 1990 is not available.

### **Land Use Data**

(15)

The Land Use information Indicates acreages and percentages for the generalized land use types used to group parcelspecific, existing land use assigned by the county property appraiser office according to the Florida Department of Revenue land use codes.

### **Community Facilities Data**

- Assisted Rental Housing Units Identifies multifamily rental developments that receive funding assistance under federal, state, and local government programs to offer affordable housing as reported by the Shimberg Center for Housing Studies, University of Florida.
- Mobile Home Parks Identifies approved or acknowledged mobile home parks reported by the Florida Department of Business and Professional Regulation and Florida Department of Health.
- Migrant Camps Identifies migrant labor camp facilities inspected by the Florida Department of Health.
- Group Care Facilities Identifies group care facilities inspected by the Florida Department of Health.
- Community Center and Fraternal Association Facilities Identifies facilities reported by multiple sources.
- Law Enforcement Correctional Facilities Identifies facilities reported by multiple sources.
- Cultural Centers Identifies cultural centers including organizations, buildings, or complexes that promote culture and
  arts (e.g., aquariums and zoological facilities; arboreta and botanical gardens; dinner theaters; drive-ins; historical
  places and services; libraries; motion picture theaters; museums and art galleries; performing arts centers; performing
  arts theaters; planetariums; studios and art galleries; and theater producers stage facilities) reported by multiple
  sources.
- Fire Department and Rescue Station Facilities Identifies facilities reported by multiple sources.
- Government Buildings Identifies local, state, and federal government buildings reported by multiple sources.
- Health Care Facilities Identifies health care facilities including abortion clinics, dialysis clinics, medical doctors, nursing homes, osteopaths, state laboratories/clinics, and surgicenters/walk-in clinics reported by the Florida Department of Health.
- Hospital Facilities Identifies hospital facilities reported by multiple sources.
- Law Enforcement Facilities Identifies law enforcement facilities reported by multiple sources.
- Parks and Recreational Facilities Identifies parks and recreational facilities reported by multiple sources.
- Religious Center Facilities Identifies religious centers including churches, temples, synagogues, mosques, chapels, centers, and other types of religious facilities reported by multiple sources.
- Private and Public Schools Identifies private and public schools reported by multiple sources.
- Social Service Centers Identifies social service centers reported by multiple sources.
- Veteran Organizations and Facilities

### **ACS vs Census Data**

(67)

The 2010 Census data is represented by a combination of decennial and ACS (2006-2010) data. The General Population Trends, Race and Ethnicity Trends, Age Trends are entirely from decennial. The Income Trends, Language Trends are entirely from the ACS. The Housing Trends section is derived from both: Decennial (Total # Housing Units, Housing Units per Acre, Owner-Occupied Units, Renter-Occupied Units, Vacant Units); ACS (Single Family Units, Multi-family Units, Mobile Homes, Median Housing Value, Occupied Housing Units w/No Vehicle).

### County Data Sources About the Census Data

(33)

Use caution when comparing the 100% count data (Decennial Census) to the sample-based data (ACS). In any given year, about one in 40 U.S. households will receive the ACS questionnaire. Over any five-year period, about one in eight households will receive the questionnaire, as compared to about one in six that received the long form questionnaire for the Decennial Census 2000. (Source: https://www.census.gov/content/dam/Census/programs-surveys/acs/news/10ACS\_keyfacts.pdf) The U.S. Census Bureau provides help with this process: https://www.census.gov/programs-surveys/acs/guidance/comparing-acs-data.html

(34)

Use caution when interpreting changes in race and ethnicity over time. Starting with the 2000 Decennial Census, respondents were given a new option of selecting one or more race categories. Also in 2000, the placement of the question about Hispanic origin changed, helping to increase responsiveness to the Hispanic-origin question. Because of these and other changes, the 1990 data on race and ethnicity are not directly comparable with data from later censuses. (Source: http://www.census.gov/prod/2001pubs/c2kbr01-1.pdf;

http://www.census.gov/pred/www/rpts/Race%20and%20Ethnicity%20FINAL%20report.pdf)

(35)

The "Minority" calculations are derived from Census and ACS data using both the race and ethnicity responses. On this report, "Minority" refers to individuals who list a race other than White and/or list their ethnicity as Hispanic/Latino. In other words, people who are multi-racial, any single race other than White, or Hispanic/Latino of any race are considered minorities.

(36)

Disability data is not included in the 2010 Decennial Census or the 2006-2010 ACS. This data is available in the ACS 2015-2019 ACS.

Because of changes made to the Census and ACS questions between 1990 and ACS, disability variables should not be compared from year to year. For example: 1) with the 1990 data, the disabilities are listed as a "work disability" while this distinction is not made with 2000 or ACS data; 2) the ACS data includes the institutionalized population (e.g. persons in prisons and group homes) while this population is not included in 1990 or 2000; and 3) the age groupings changed over the years.

(38)

The category Bachelor's Degree or Higher under the heading Educational Attainment Trends is a subset of the category High School Graduate or Higher.

### **ACS vs Census Data**

(68)

The 2010 Census data is represented by a combination of decennial and ACS (2006-2010) data. The General Population Trends, Race and Ethnicity Trends, Age Trends are entirely from decennial. The Income Trends, Language Trends are entirely from the ACS. The Housing Trends section is derived from both: Decennial (Total # Housing Units, Housing Units per Acre, Owner-Occupied Units, Renter-Occupied Units, Vacant Units); ACS (Single Family Units, Multi-family Units, Mobile Homes, Median Housing Value, Occupied Housing Units w/No Vehicle).
