

# RESURFACING AND ROADWAY IMPROVEMENTS

Financial Project  
Identification  
(FPID) No.:  
441140-1

S.R. 436 from Northlake Boulevard (Cranes Roost Boulevard) to Boston Avenue

## Seminole County

### PROJECT DESCRIPTION

The Florida Department of Transportation (FDOT) is resurfacing State Road (S.R.) 436 from Northlake Boulevard/Cranes Roost Boulevard to Boston Avenue, along with implementing safety enhancements along the corridor. Planned improvements include new sidewalks, reconstructed curb ramps, and upgraded drainage to enhance roadway conditions. Additional upgrades feature enhanced traffic signals, improved pedestrian lighting, and refreshed signing and pavement markings. The project also introduces bicycle keyhole lanes, positioned between a through lane and an adjacent right-turn lane, bus bay, or parking lane, to enhance cyclist safety. The design plans were prepared by the City of Altamonte Springs, with FDOT overseeing construction operations.

### WHAT TO EXPECT

During construction, motorists should expect regular single-lane closures at night, along with continuous closures along the outside lanes of the road, which will create a buffer zone for the safety of work crews. Signage and traffic control devices will also be in place to direct drivers through the open lanes, allowing traffic to flow smoothly through the corridor. The contractor will maintain access to sidewalks, businesses, and residences throughout the project to minimize disruptions and ensure the community remains accessible.

While workers are on site, motorists are strongly encouraged to exercise caution and reduce their speed to ensure safety for everyone on the roadway. The project timeline is subject to change and may be adjusted depending on weather conditions or unforeseen events. For the most current project details and lane closure information, please visit FDOT's Central Florida website at [www.cflroads.com](http://www.cflroads.com).

#### CONTRACTOR

Masci General Contractor, Inc.

#### PROJECT COST

\$13 million

#### PROJECT START

June 2023

#### ESTIMATED COMPLETION

Early 2025
