

SW S.R. 200 at SW 60th Avenue Intersection Improvements

Marion County

Financial Project Identification (FPID) Number: 451253-1

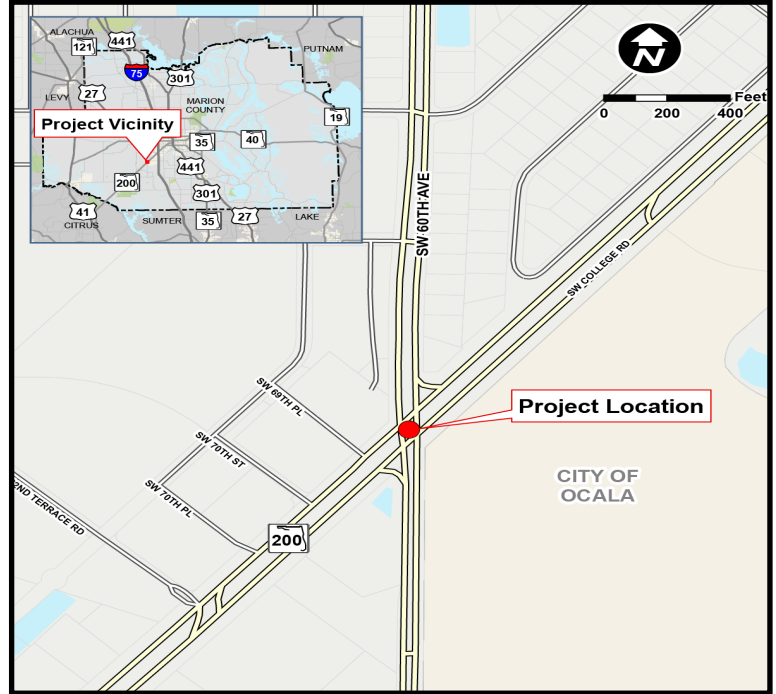

Project Description

The Florida Department of Transportation (FDOT), is planning safety improvements at the intersection of SW State Road (S.R.) 200 (SW College Road) and SW 60th Avenue in unincorporated Marion County, southwest of the City of Ocala.

Due to the high number of crashes at the intersection, FDOT conducted a safety study to identify contributing factors and recommend ways to decrease the number and severity of crashes.

This project will implement the long-term recommendations. The proposed concept will add a second span wire to accommodate more traffic signals and allow each travel lane on S.R. 200 to have a dedicated signal. Additionally, the signals will be upgraded with reflective backplates that make the signals easier to see.

Enhanced intersection lighting is planned, as well as refreshed signing and pavement markings.
